GREEN SUMMUM

N/A	N/A	N/A	N/A	N/A	1.0	1.0	1.0	N/A	N/A

Keep pH of nutrient solution between 5.8 and 6.2 for Coco Based substrates
 Grow Guide is intended for lightintensities between 100 PPFD (Rooting) and 1000 PPFD (Ripening)
 Using higher lightintensities might require higher nutrient dosage (EC)

Short-flowering varieties: Remove a block of biomass and/or flower bulk
Long-flowering varieties: Add an extra block of biomass and/or flower bulk
